Summary

- Software engineer with 4+ years of experience specializing in **Java**, **Node.js**, **Golang**, **Salesforce**, and **AWS**, delivering high-performance solutions.
- Demonstrated expertise in optimizing system scalability, improving performance, and enhancing troubleshooting efficiency.
- Passionate about leveraging full-stack development skills and delivering high quality and maintainable software.

Awards & Achievements

- **Governor's Award for Excellence in Public Service 2025** — Awarded by the Governor of the State of Utah for recognizing exceptional contributions to public service through innovative technological solutions and dedication to improving community services.

Professional Experience

Senior Analyst

Feb 2025 – Present

State of Utah, Salt Lake City, Utah

- BOPP Connect - Court Information Recon System:
 - Led the end-to-end development of a court information system using **ServiceNow**, that cut down manual data import time by 85%.
 - Designed and implemented complex workflows, business rules, and UI policies to streamline case management processes, reducing manual effort by **30%**.
 - Developed Scripted REST APIs, REST Messages to integrate with external systems, enhancing data exchange and operational efficiency.
 - Delivered the project ahead of schedule, resulting in a **15%** increase in team productivity and improved stakeholder satisfaction.
- MyVoice - Victim Notification System (Salesforce):
 - Spearheaded the development of a victim notification system using **Salesforce**, enhancing public communication.
 - Developed the application using **Apex**, **Visualforce**, **Flows**, **Lightning Web Components (LWC)**, and **SOQL**.
 - Created data-flow diagrams, process flows, and technical documentation to streamline development and maintenance processes.
 - Integrated third-party services using system callouts and REST APIs.

Analyst - I

Sep 2024 – Feb 2025

State of Utah, Salt Lake City, Utah

- Automated the generation and upload of **500,000** historical records to a CMS using **Spring Batch**, reducing the effort by **90%**.
- Optimized SQL queries to efficiently retrieve data, decreasing the number of database calls from 12 to 4 per document.
- Designed and implemented asynchronous processing using message queues, cutting processing time from **10 hours** to **3 hours**.
- **Key Technologies:** Java, Spring Batch, Postgres, OpenPDF, Git, Jira.

Software Engineer Intern

Jan 2023 – Jun 2023

Oracle, Salt Lake City, Utah

- Developed a customer lifecycle tracking app that generated leads that contributed to a **\$2M** increase in month-on-month revenue.
- Designed a high-performance database schema to efficiently manage millions of user records.
- Implemented **OAuth2.0** token-based access control, reducing **40%** of malicious security incidents.
- **Key Technologies:** JavaScript, Apex, Oracle, OAuth2.0, Git.

Software Engineer

Jun 2021 – Jul 2022

Deloitte, Hyderabad, India

- Developed RESTful APIs for a healthcare platform supporting **2.5 million** users, facilitating secure data handling and HIPAA compliance.
- Reduced latency by **30%** by migrating a monolithic feature to a microservice architecture and integrating it with **AWS SQS & DynamoDB**.
- Led end-to-end development of a customer feedback feature that boosted actionable insights by **25%**.
- Reduced deployment time by **20%** by developing a Jenkins CI/CD pipeline to deploy **Docker** containers on **AWS ECS**.

Associate Software Developer

Jul 2020 – Jun 2021

ClearTax, Bengaluru, India

- Increased user engagement by **20%** by reducing page load times through lazy loading and efficient API handling in **Express.js**.
- Built middleware solutions to seamlessly integrate client ERPs and ClearTax REST APIs, saving over **20+ hours** per implementation.

Skills & Certifications

- **Languages:** Java, Go (Golang), JavaScript, SQL, NoSQL, HTML/CSS
- **Frameworks & Tools:** Spring, Node.js, React.js, Git, Agile (Scrum), Linux, gRPC, Salesforce, ServiceNow
- **Cloud & DevOps:** AWS (EC2, Lambda, S3, DynamoDB, RDS, ECS, CloudFormation), GCP, Docker, Jenkins, Kubernetes, CI/CD
- **Certifications:** AWS Certified Developer - Associate, GCP Associate Cloud Engineer, Certified ScrumMaster

Education

University of Utah

Aug 2022 – Dec 2023

Master of Science - Information Systems GPA: 4.0/4.0

- Relevant Courses: Java & Data Structures, Algorithms, System Architecture & Design, Security, Object-Oriented Programming
